Rationale

Bigland Green believes that school matters. Regardless of the myriad of challenges faced by children and their families, an effective school can make a positive difference to their lives. An effective school reflects its community and devises strategies to overcome the barriers posed by socio-economic deprivation and defy the curse of social disadvantages.

Bigland Green has a broad and balanced curriculum and strives to provide irresistible learning to all its pupils. The curriculum intent and its implementation address the issues surrounding cultural capital so that every pupil has an increased life chance. The governors, staff members, parents and volunteers of the school work as a strong team and ensure that all pupils achieve their best.

Values

Bigland Green has an absolute commitment to staff well-being so that they can deliver a first-class education. The well behaved, hardworking pupils who love attending school every day to learn and grow are the centre of attention. At the heart of the school's work is to make teaching and learning more enjoyable and a worthwhile experience for everyone.

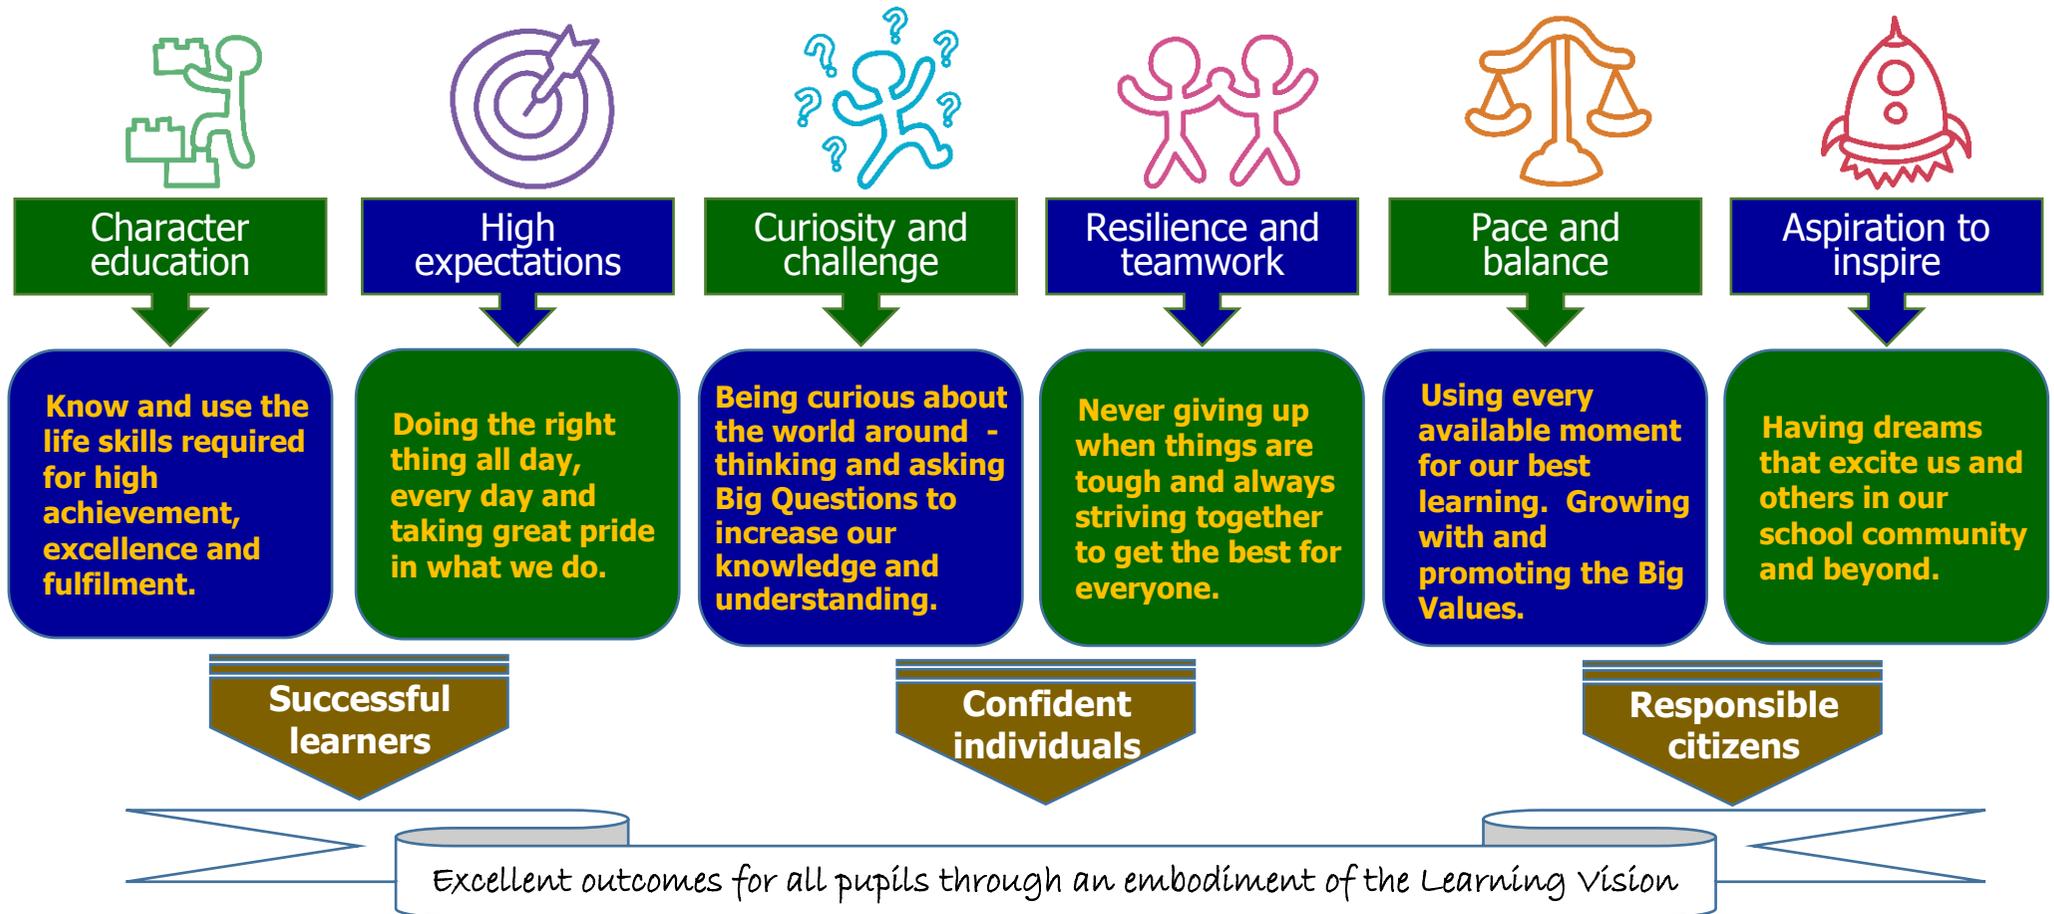

The school has clear policies and guidance to ensure that all stakeholders can support the school in achieving its mission. The Learning Vision is the foundation of the school's ethos and sets out the way we do things at this school.
