

A plan for the effective use of school sport funding premium for 2020/21

Building on the success of the sports premium funding from the last 6 years, the school is expecting to receive another grant for approximately **£19,545** which has been allocated as follows:

Description	Cost	Expected impact
Swimming – intensive for year 6	£4,000	Build children’s confidence and children to learn a key life skill. Allow all children to reach the 25m expected target by the end of KS2
Further development of E1 Sports Cluster – competition and CPD provision	£1,000	Build on partnership work, shared expertise between teachers and improved competition for all children.
Specialised coaching support for club and curriculum provision	£3,000	CPD for teaching staff, improved curriculum/enrichment opportunities for children.
Continued development of Big Fitness and Sugar Smart activities including healthy life-styles outreach program	£3,000	Increased percentage of vulnerable children falling within the correct BMI range for their age.
Enrichment Health & Sports based activities for Years 1-6	£8000	Children exposed to wider variety of H&S activities they may not get outside school such as kayaking and ice skating. Also to be used for outdoor adventure activities for Year 6 residential and Year 3 sleepover.

The school will also continue to direct budget towards the following to ensure good or better outcomes for pupils in physical education:

- Specialist PE teacher and PETA who develop and deliver the PE curriculum with the class teachers
- Leading the E1 Sports Cluster to support local schools with competition and CPD
- Curriculum resources and lunchtime sports equipment
- Provide a range of after-school sport clubs. Allowances made for pupil premium.
- Hosting events such as sports day, and other activity based fund raisers

Impact of the planned actions in 2019/20

Description	Cost	Expected impact	Actual Impact
Swimming – intensive for year 6	£4,000	Build children’s confidence and children to learn a key life skill. Allow all children to reach the 25m expected target by the end of KS2	55% of children reached the 25m distance. This needs to be built of with the extended lesson of Year 4 swimming lessons
Development of E1 Sports Cluster – competition and CPD provision	£1,000	Build on partnership work, shared expertise between teachers and improved competition for all children.	Average of 4 schools attending 10 competitions in the year
Specialised coaching support for club and curriculum provision	£1,500	CPD for teachers, improved curriculum opportunities for children.	Inconsistency of quality coaches so impact was not as expected
Continued development of Big Fitness and Sugar Smart activities.	£1,000	Increased percentage of children falling within the correct BMI range for their age.	Widespread awareness of Sugar Smart in school community. Obesity remains a concern.
Enrichment Health & Sports based activities for Years 1-6	£3000	Children exposed to wider variety of H&S activities they may not get outside school	All activities supporting the Learning Vision of the school
